Let us reduce your workload!

Supporting hundreds of Social Housing Providers with the challenges, changes and demands of an evolving, digitised world.

“ Over the next few years, the organisation is set to fully embrace Digital engagement with its customers. The new Desktop as a Service with its 'always on' functionality managed by a team of IT experts will ensure this happens and that our internal IT team can focus on the delivery of enhanced services to its customers. ”

Housing Solutions

“ With Castleton's support, we will have the flexibility to develop and innovate our services, giving us the agility we need to meet the challenges facing the housing sector both now and in the future. ”

DGHP

“ I think organisations would benefit from working with Castleton, as they bring a high level of technical expertise, transparency and proactivity to our projects. They regularly bring ideas to the table that will benefit the business and help us to deliver better services to our customers. ”
